)
)
Title: ROTATING BARRIER FOR JET MASSAGE)
)

PRELIMINARY AMENDMENT

IN THE CLAIMS:

1. (Original) An apparatus comprising:

a frame;

a carriage mounted to translate along the frame;

water jets; and

a barrier enclosing the water jets and coupled to rotate in conjunction with translation of the carriage.

2. (Original) The apparatus of claim 1, further comprising:

a jet mount comprising the water jets and passing through holes in discs to which the barrier is coupled.

3. (Original) The apparatus of claim 2, further comprising:

a barrier support supported by the jet mount.

4. (Original) The apparatus of claim 2, further comprising:

holes located to collect water released from the water jets into the barrier.

5. (Original) An apparatus comprising:

a pad;

water jets; and
